

# The Daily Gazette

SATURDAY, OCTOBER 23. 1742

Yesterday arriv'd a Mail from Holland.

Stockholm, Oct. 19.

HE Troops which arrive here daily from Finland, are now increased to a very formidable Army; but, alas! at present they are only formidable to ourselves, every House is full of Soldiers; and tho' the King has promised we shall soon be freed from this Inconvenience, yet as it must depend on the

Diet's taking a Resolution to employ and quarter them elsewhere, we are still very much dissatisfied on that Subject, the States being as much divided on this Head as on any other. To say the Truth, there is but one on which they seem to be agreed, and that is, the Necessity of making a Peace on almost any Terms whatever.

Mantua, Oct. 14. The Austrian Infantry have already pass'd the Panaro, and are in full March for the Ecclesiastical State; 2000 of their Horse have taken Possession of the Passes in the Neighbourhood of Bologna, so that if the Spaniards continue in their Resolution of taking that City for their Head Quarters, a Battle must necessarily ensue. We have this Instant Advice, that upon the Receipt of a Courier from Madrid, the Spanish General, who was advanced within three Miles of Bologna, had thought fit to retire.

From the Spanish Camp at Baranux, Oct. 16. The King of Sardinia's Entry into Savoy proves but too true. His Majesty caused the Gros of his Army to march by Moutiers. Eight Battalions, and a great Number of Barbets, took their Route by Morienne, and both these Bodies join'd at St. Peter de Albani. This added to the Change of Conduct visible in the Inhabitants on the Approach of their Sovereign, and the strong Appearance there was that the Army would be speedily reduced to Want of Provisions, obliged his Royal Highness to hold a Council of War, at which most of the General Officers assisted, and wherein it was unanimously resolved, that a Retreat was the only Measure that could be taken. On these Grounds we have taken Possession of the Camp we are now in; which is the same that was occupied by the Duke of Berwick, when in like Circumstances. Here we are to expect the Succours promised us from Spain.

Geneva, Oct. 8. His Sardinian Majesty has entirely recover'd Savoy, his Troops having taken Possession of Chambery on the 17th. Some People fancy this will be fatal to the now French Ministry, who have fail'd in their first Attempt. Their Scheme is said to have been this, To have conquer'd the Duchies of Parma and Placentia in Italy, and to have offered them to his Sardinian Majesty in lieu of that of Savoy. His Majesty however will hear nothing of this, or of any other Proposition, but has bravely recovered his Country by Force of Arms. As there is however Reason to fear a second Attack, his Majesty offers to all the Inhabitants of the Duchy who shall enlist voluntarily, Four-pence a Day and Ammunition Bread, with a Promise not to employ them out of their own Country. The Spaniards maintained a very exact Discipline during the time they were in Possession of the Duchy, and did not offer to commit any Outrages when they march'd away. All the Contributions they levied did not amount to above 150,000 Crowns, including Provision and Forage.

Vienna, Oct. 14. On the 11th our Court sent to all its Ministers abroad, a certain Circulatory Rescript, in answer to the Commissorial Decree communicated to the Diet on Sept. 22. last; a Copy was at the same time delivered to the Baron de Erthal, Minister from the Elector of Mentz, who had been entrusted with the Communication of the said Decree to her Majesty; and at the Time of the Delivery of this Piece, it was signified to the said Minister, in the Name of her Hungarian Majesty, That she was determined never to depart from the Sentiments contain'd in that Rescript. This Piece is very long, but contains in Substance, That the Queen cannot possibly accept the Terms mentioned in the said Decree; and amongst other Arguments used by her Majesty on this Occasion, one is, that a mere Cessation of Arms cannot in any Degree secure the Tranquillity of the Empire, but seems rather to be a Measure calculated for procuring fresh Opportunities for France to execute the Scheme she has formed, of subverting the Constitution of the Empire, and oppressing the Liberty of Europe. The Queen, however, declares, That notwithstanding the Manner in which she has been treated, she is still inclined to such an Accommodation as may be for the common Benefit of both Parties, and not purely for the Advantage of the

French; adding, that she will never suffer herself to be disjoined from Great Britain or the rest of her Allies but will readily consent to renew the Negotiations at the Hague, which were first enter'd into at the Request of the Emperor himself.

Nuremberg, Oct. 21. According to the last Advice from the Army of Marshal Maillebois in Bohemia, which are of the 18th. it is evident that he will be obliged to retire. His Design was to have join'd Marshal Broglie, and then, in case a favourable Opportunity offer'd, to have given Prince Charles Battle; but that Prince having by forc'd Marches enter'd the Territory of Sautz, and taken Possession of all the Passes, it was simply impossible for Marshal Maillebois to execute his Scheme. Upon this a Council of War was called, in which it was unanimously agreed, that as the Marshal had oblig'd the Austrians to raise the Siege of Prague, and had thereby given the Garrison an Opportunity of procuring such Supplies as might enable them to hold out till next Spring; and as in doing this, his Army was harrass'd to the last degree, his Cavalry in a manner ruin'd, and the Country round about totally exhausted, the only advisable Step he could take was, to retreat in time: At the breaking up of the Council, the Army began to march back to Egra. The general Opinion here is, that the French will do their utmost to get back into their own Country; for tho' there are prodigious Magazines erected in Franconia, as well as in the Upper Palatinate, yet as the wintering the Army there must inevitably ruin it, it is more reasonable to judge, that Maillebois will return and leave Broglie to his Fate.

Dresden, Oct. 22. There arrive here almost every Day Abundance of Mules laden with Baggage from Prague, which are going back to France. The Day before Yesterday there came hither a French Major-General, 16 Captains, and a Lieutenant: They all pretend they came from Prague, but from various Circumstances we are inclined to believe they impose upon us a little in that Particular; and that in reality they belong to a great Body of French Horse, which having been defeated by a Corps of Austrian Hussars, they have been lucky enough to escape hither, tho' they have too much Pride to own it.

Hanover, Oct. 26. Letters from the Frontiers of Bohemia assure us, that 7,000 French Horse and Dragoons have been entirely routed by a great Body of Austrian Hussars, that all the Hospitals at Egra have been crowded with Wounded, and that 7 or 800 Men have been either killed or taken. This happened on the 16th.

all other Means have fail'd, and without causing the least  
Trouble or Uneasiness in using.

Eyes in Children or grown Persons, tho' of many Years stand-  
ing, be it either of the dry, itching and smarting Kind, or  
moist, rheumy or watering, and whether proceeding from  
the Evil, or any other Dis temper.

It effectually takes away all Specks, Films, or incipient  
Cataracts to Admiration, as also all Flies or Gnats, that  
seem to swim before the Sight; it wonderfully strengthens  
the Optick Nerves, comforts the Eyes, immediately re-  
moves all Dazzling and Dimness, clearing the Sight, and  
infallibly preserving it strong and good to exceeding old Age.

Age to be the Occasion, have been perfectly and almost in-  
stantly cured by it, so as to read the smallest Print without  
Spectacles; and for Ophthalmics, or Sore, Bloodshot, or Rheu-  
my Eyes, no Medicine upon Earth can come near it.  
Thousands of Men, Women, and Children, have been cur'd  
by it of the very worst Sort, almost upon the Spot, and  
Blindness been prevented in abundance who had tried all

counted a miraculous Remedy.

they have had but one Day's Experience of its admirable  
Efficacy.

Minories, London, at 3s. 6d. a Bottle, with printed Direc-

ANTI-SYPHILICON.

THE only short and most infallible

Cure in the Universe for the VENEREAL Ulcer,  
from the slightest Infection to the most extreme and deplora-  
ble Degree of it, even when the Blood and Juices are too  
thoroughly contaminated with its malignant VAPOR, and the ve-  
ry Bones are affected with it.

Fresh Infections, call'd CLAPS, with all their attendant  
Symptoms, tho' ever so severe, are entirely carried off by  
it in a few Days, and so as effectually to prevent the Blood  
and Juices from being tainted with any remaining Relique  
on one Hand, or a venereal Gleet or Weakness to happen  
on the other.

And the most inveterate Degree of the French Ulcer,  
attended with Nocturnal Pains, universal Breakings out,  
and all the other most exasperated Symptoms, are soon  
overcome by it, and effectually and much more safely cu-  
red than by Salivation, Inunction, or any other Method  
whatever, and in so easy and pleasant a Manner, without im-  
pairing Strength, or occasioning any Inconvenience, as to be  
despise it the only apposite Remedy or true Venereal  
Antidote in the World; and this some Thousands have ex-  
perienced their great Joy experience'd.

It is pleasant to take, occasions no Sickness or Disorder,  
nor requires Confinement; but may be taken, and the Cure  
be accomplish'd, without the Knowledge of the nearest  
Friend.

These who suspect they have received an Injury, may,  
by only a Dose or two of it, be perfectly freed from all  
Apprehensions; for it suffers no lurking Venom to lie hid  
in the Body, but wholly extirpates it Root and Branch, in  
a gentle, easy, and most effectual Manner.

All such likewise as doubt they have some remaining Re-  
licks of former Injuries, may by a few Doses of it entirely free  
themselves from all Suspicion of that Kind; for it admits of  
no Foulness, Corruption, or Putrefaction whatever, to re-  
main in the Fluids, or to adhere to the Solids; and on that  
Account, in all scorbutick, scrophulous, and even leprous  
Eruptions or Foulnesses of the Skin, Glandulous Swellings  
and Impurities of the Juices, it does more by one Dose,  
than any other Medicine yet known can by ten.

The Price of this most Noble ANTI-SYPHILICON is but  
Six Shillings a Pot, which, considering its extraordinary Efficacy,  
one Pot only being sufficient in most Cases to accom-  
plish the Cure, is not a tenth Part of its Value, and is ap-  
pointed by the Author to be had only at Mr. RADFORD'S  
Toyshop, at the Rose and Crown against St. Clement's  
Church-Yard in the Strand, ready sealed up with a Book of  
Instructions, by the Perusal of which, all Persons who were  
ever affected with any Degree of the Venereal Disease, may  
perfectly understand their own Condition, and certainly  
know when, and when not, the Venereal Poison is entirely  
rooted out of their Bodies.

Note, Ask only for a Six Shilling Pot for the Security.
